HANDS-FREE & EARS-FREE CALLS

Life at home has a soundtrack.

Introducing a totally new way of experiencing sound at home — by wearing it. Thanks to the JBL Signature Sound wireless performance, the Soundgear creates your own personal sound zone while allowing you to remain fully aware of your surroundings. Bluetooth®-enabled for sound streaming from compatible devices, the JBL Soundgear features Quad transducers with Bass boost for an exciting sound experience and 6 hours of playback time, a quick recharge time of 2 hours. Thanks to its dual mic conferencing system with echo-cancelling technology it provides crystal clear phone calls. The around-the-neck construction, ergonomic shape, intuitive controls, and soft touch fabric finish provide a hands-free and ears-free audio experience unlike any you've ever had before. Whether you want to give your VR experience a boost with immersive audio, watch a video, add music to your daily activities around the house or take a conference call, the JBL Soundgear provides you with an exciting, pervasive sound experience with total freedom and comfort.

Features and Benefits

JBL Signature Sound

Enjoy an enriched and immersive audio experience that only JBL sound can provide, thanks also to the Quad transducers with Bass boost.

Dual mic conferencing

Hands-free, crystal clear voice calls make your conference calls easy and convenient, free from echo and noise.

Hands-free and ears-free

Cut the cords and conveniently stream all your music wirelessly and hands-free, staying aware of your surroundings, without disturbing the others.

6-hour battery life

Micro USB charging built-in battery provides 6 hours of playing time, with a quick recharge in just 2 hours.

Comfort-fit design

An ergonomic shape that leans gently on your shoulders and soft touch materials that fit all sizes combine to create an unbelievably comfortable audio experience.

Intuitive controls

Easily take control of your music or calls without taking off the Soundgear.

Seamlessly switch between devices

Allows you to effortlessly switch from one device to the other. You can simply switch from a video on your tablet to a call on your mobile phone, so that you'll never miss a call.
